Guardian(s), please read below and sign your acknowledgement:

1. I have been informed of this educational experience. It will include extensive time spent outdoors and learning activities related to science, technology, engineering, art, and math (STEAM) as well as Dakota culture. Sunscreen, insect repellent, and a first aid kit will be available and children will be encouraged to apply it. Assistance will be provided with application as needed. Your child may experience insect bites or sunburn. Some time will be spent wading in water and cooking over a fire.
2. My child has my permission to participate in this supervised field experience.
3. I agree to instruct my child to obey all rules, regulations, and instructions given by the teacher and/or authorized personnel. I further agree that no teacher or authorized personnel shall be held responsible or liable for injuries or other mishaps caused by my child's deliberate disobedience of rules, regulations, or instructions. All staff working with children have had background checks.

YOUR SIGNATURE BELOW INDICATES THAT YOU HAVE READ AND AGREED TO THE ABOVE AND THAT WE HAVE YOUR PERMISSION TO TAKE YOUR CHILD ON THIS FIELD EXPERIENCE. You also authorize any medical care or first aid and/or the administration of anesthesia determined by a physician to be necessary for the welfare of your child while said child is in CCCC's care and you are not reasonably available by telephone to give consent. This would be for emergency situation purposes. CCCC will not be responsible for any medical expenses incurred on behalf of the child.

Building Community Capacity and Resilience through 4-H in ND Tribal Nations **Parent/Guardian Permission Form**

TO: Parents/Guardians of Building Community Capacity and Resilience through 4-H in ND Tribal Nations STEAM programs

FROM: Susan Quamme, Center for 4-H Youth Development

Dear Parent/Guardian:

This is a research study. The information below describes a Building Community Capacity and Resilience through 4-H in ND Tribal Nations study we are inviting community youth, including your child, to participate in.

You are free to decline allowing your child to participate in this research study or to withdraw from the study at any time without adversely affecting your relationship with the researchers, 4-H Youth Development, or North Dakota State University. If you have any questions or decide you do not want your child to participate in this study, please contact your local 4-H Extension Agent/Educator or the lead researcher of this study, Susan Quamme, 4-H Youth Development Specialist, 701-231-5923/ susan.quamme@ndsu.edu).

Thank you for your time and interest, it is greatly appreciated.

Why is my child being asked to take part in this evaluation research? Your child (or children) is/are being invited to participate in this 4-H evaluation research study by completing a survey about their participation in Building Community Capacity and Resilience through 4-H in ND Tribal Nations STEAM (science, technology, engineering, arts, and math) programs, activities, and projects. They will be asked to provide feedback on the value of the program/activity.

What is the reason for doing the study? The main purpose of this evaluation research is to collect evidence of Building Community Capacity and Resilience through 4-H in ND Tribal Nations program impact on the youth who participate in the program. The specific goal of this evaluation research study is to obtain data on youths' perceived behavioral change. The overall purpose of the study is increasing high quality, culturally relevant STEAM educational opportunities for youth, so they can see themselves in some of those careers and go on to pursue post-secondary education in STEAM related fields.

What Information will be collected about my child? Information about your child's age, grade in school, gender, length of participation in the program, race and ethnicity, parent's military status, as well as information about your child's perception and opinion of how their participation in STEAM related

activities has benefited them will be collected on a hard copy/paper survey. There will be no identifying information on these forms.

Are their benefits to my child? Benefits of the study may be your child will learn about STEAM topics and have hands on experience with these topics, may develop an interest and possible career goals in one of these topic areas and may feel good about helping us to understand the kinds of things they are learning and feeling about the STEAM activities they are involved in and how we can help promote learning of STEAM skills.

Where is the study going to take place, and how long will it take? The surveys will be given to youth before and after they participate in an activity provided at the activity site. It will take from 15 to 20 minutes of your child's time to complete the evaluation survey.

What are the risks and discomforts? There are no known risks or discomforts associated with this evaluation research.

Does my child have to participate in the study? Whether your child participates in this research is your choice. If you and your child decide to participate in the study, either of you may change your mind to stop participating at any time without penalty.

Who will have access to my child's information? How will it be presented?

This study is confidential. This study does not collect any identifying information. Your child's answers to survey questions will be entered into a secure server at NDSU Extension Center for 4-H. Data collected during a program year will be shared with Building Community Capacity and Resilience through 4-H in ND Tribal Nations evaluation staff and our national partner and funder, CYFAR. We will keep all research records confidential. Your child's information will be combined with data from other people taking part in the study. If we write about or publish the study, we will share only the combined information.

What if I have questions? You may ask any questions about this 4-H evaluation research and have all questions answered before agreeing to allow your child to participate, or at any time during the study. Contact the lead research coordinator with your questions: Sue Quamme at 701-231-5923 or susan.quamme@ndsu.edu.

What are my child's rights as an evaluation research participant? Your child has rights as a participant in evaluation research. If you have questions about your child's rights, or complaints about this evaluation research, you may talk to the researcher or contact the NDSU Human Research Protection Program by: • Telephone: 701- 231-8995 or toll-free 1-855-800-6717 • Email: ndsu.irb@ndsu.edu • Mail: NDSU HRPP Office, NDSU Dept. 4000, PO Box 6050, Fargo, ND 58108-6050.

The role of the Human Research Protection Program is to see that your rights are protected in this research; more information about your rights can be found at: www.ndsu.edu/irb .

Important: How do I choose to withdraw my child from this research study? If you do not want your child to participate in this research study or have any questions about this survey, please contact your local 4-H Extension Agent/Educator or the lead researcher of this study, Susan Quamme, 4-H Youth Development Specialist (701-231-5923/susan.quamme@ndsu.edu).

How do I approve my child to be part of the research study? Please be sure to read this form thoroughly. If you approve your child to participate in the 4-H National Mentoring Program research study, you do not have to do anything further. This means that

1. you have read and understood this consent form
2. you have had your questions answered, and
3. you give permission for your child to be in the 4-H evaluation study

Thank you for your time and consideration to allow your child to participate in this evaluation.
